SKU: 23U-2976U

Product Categories: [Artificial Nails](#), [Foot Care](#), [Implements](#), [Nail Treatment](#)

Product Page: <https://portz-beauty.com/shop/artificial-nails/ul-nail-pick-and-shovel/>

Product Description

Pick And Shovel by Ultra Implements is made in Italy of high quality Stainless Steel. The shovel end conforms to the nail for efficient cuticle pushing. It will not scratch the nail plate. The pick end cleans under and around the nail and is ideal for removing excess gel and acrylic.

For Professional Results: Soak nails to soften cuticles. Use the u shaped "shovel" end to push back cuticles and the "pick" end to clean under and around the nails!
