Product Description

Toenail Clipper With Catcher Professional by Ultra Implements is made in Japan of high quality Stainless Steel to keep its cutting edges sharp and rust-free. This premium tool slices quickly and easily through toenails and leaves your edges smooth. It also features a sliding sheath to catch clippings and keep your floors mess-free. Elevate your grooming experience with this professional clipper or buy one as a unique gift. You won't be disappointed!

For Professional Results: Pull up clipper handle and rotate 180 degrees. Position open mouth of clipper over nail to be cut. Trim to desired length and shape. Clippings will be trapped in the catcher for no mess grooming. To empty, simply slide back catcher and dispose of clippings in trash. Do not cut live skin.
