SKU: 90Z-ZENSA

Product Categories: [Electrolysis](#)

Product Page: <https://portz-beauty.com/shop/electrolysis/zensa-numbing-cream-30g/>

Product Description

Formulated for painful procedures like waxing, microblading, tattooing and more.

Maximum strength 5% Lidocaine.

Lasts 2 to 3 hours and is safe to reapply on broken skin to extend numbing sensation.

Natural pH formulation is safe to use on the most sensitive areas like the bikini area and lips.

Does not contain vasoconstrictors that will affect the settling of ink.

Vitamin e acts as an anti-inflammatory to boost the healing process.

Vegan and steroid free.
