Product Description

Mustache Scissors & Comb by Ultra Implements is a convenient combination of our 4101 Mustache Scissors and a fine-tooth comb. The comb features a sturdy, rounded teeth that will not scratch your skin or get tangled in your facial hair. The Italian hand-ground scissors cleanly and smoothly trim any stray hair for a polished, perfectly groomed look. For Professional Results: Comb mustache or beard in the direction of the hair growth to ensure smoothness. Using scissors, trim to desired length. Do not pull hair straight and hold to cut as this may create uneven lines. Allow hair to fall normally after it is combed.
