Product Description

Tweezers Slant Tip by Ultra Implements are made in Italy and feature precision-ground tips for reliable tweezing. This affordable grooming staple is excellent for general tweezing and for shaping eyebrows!

For Professional Results: Clean the area to be tweezed with soap and warm water. Do not use make-up remove or apply moisturizer. Isolate the hair to be tweezed and gently pull it in the same direction as the hair growth. For eyebrows, pluck to desired shape remembering to step back and look in the mirror often to avoid over tweezing. The upper end of the slant tip tweezers can be used for precision work. When finished, splash cool water on the area to close pores.
