Product Description

The Rescue Serum is the first and most important step of the Gelie-Cure System. The Serum is the ultimate treatment skin care for nails and cuticles. It revitalizes the nail by replenishing the sebum on the natural nail plate and fills the open spaces in the keratin fibers of the nail improving nail strength and flexibility. If your nails are perfect, it will help keep them looking and feeling that way. But if your nails are less than perfect, the Serum immediately starts working its magic helping to improve the look and feel of the nails.

It's the first line of defense against potential damage from excessive moisture, dryness and brittleness. The Serum is the solution to nail damage from prolonged wear and removal of gel nail polish, acrylic nails, dips and other nail enhancements. The Rescue serum can also be used as a daily stand-alone cuticle treatment.

The Gelie-Cure Rescue Serum is a naturally derived combination of oils, nutrients and conditioners never before used in nail care treatment. It is the first of its kind, nail treatment that allows you to paint directly over it without washing it off your nails or cuticles.

The Rescue Serum is designed to be worn as a cushion underneath the Gelie-Cure Repair Base Coat. Read the Gelie-Cure Rescue Serum Instructions and Usage Guide and see all the unique possibilities it holds for your nails and cuticles. Say goodbye to unsightly damaged nails forever!
