Product Description

Description

Features

HydraTest by BeautyPro is an innovative device that measures hydration and oil levels so that you can keep a check on your skin when at home or travelling. Moisturise with your favourite skin care when required to keep your skin in the best condition. HydraTest utilises the latest BIA technology (Bioelectrical Impedance Analysis) the same credible technology used in larger medical and beauty equipment to ensure accurate and precise information about your skin.

HydraTest is simple to operate]

Press the Measure button once, apply the contact to the skin zone you wish to check and the digital read out will display oil and hydration level within 3 to 5 seconds. This information is then cross referenced with a credit card sized guide included with the product. Lightweight and easy to operate, just a few seconds of your time a day can help prevent skin ageing.

What's in the Box?

- 1 x HydraTest Skin Analysis Device - 1 x Analysis Guide (Credit Card size) - 1 x User Manual - 1 x AAA Battery

Battery life: Approximately 1000 measurements
