Product Description

DESCRIPTION

A creamy emulsion that produces a light mousse effect when removed with water. It contains natural emollients to nourish and protect the lipids of the barrier function in dry skin. An essential deep cleansing product, phase 2 of the EXPERT CLEANSE PRO double cleansing method. It deeply cleanses impurities from the skin without drying it out or damaging it. It is ideal for cleansing normal to dry skin.

PRODUCT BENEFITS

Removes excess serum, bacteria and impurities from the innermost layers of the skin

SKIN TYPE

Especially suitable for dry skin.

MODE OF APLICATION

Apply over the face, neck and cleavage using circular movements. Focus on areas with impurities. Wet your hands and continue to massage until a light and creamy emulsion is formed. Rinse well with warm water.
