Product Description

Essential Enzyme Peeling by Skeyndor contains a biotechnological keratolytic action enzyme, which acts to effectively renew the most keratinized skin. Its enzymatic action occurs through a catalyst effect on the corneous layer cells, accelerating the skin's renovation process, without irritation. This peeling is characterized by its great activity and stability, ensuring results in all skin types. The skin is left feeling renewed, radiant and clear. Includes 50ml diluting emulsion, and 6x2.5ml active lotion vials.

Skin Type: All skin types

Active Ingredients: Biotechnological protease

Application:

- This peeling consists of two phases: an active solution that contains the enzyme and a diluting emulsion to aid application
- Before using it, mix both phases together in a bowl and spread onto the area to be treated
- Leave on for 7 to 10 minutes and remove with plenty of water
- Dry the skin, making sure all the product has been removed
- Exclusive professional use; apply once a week
